Furthering learning and skills for the engineering industry

Gloucestershire Engineering Training
is the lead training provider
of engineering apprenticeships
and skills training to mechanical
and electrical engineering
companies across Gloucestershire

Why Engineering?

It's all around you. Wherever you are, wherever you stand, everything has been designed and built by engineers – mobile phones, ipads, fast cars and aircrafts. Working with businesses and designers, engineers are responsible for finding the best materials and calculating how best to manufacture the product.

What is an apprenticeship?:

It's the first stage of your journey and the start of an exciting and rewarding career in engineering. You will earn as you learn and be employed by a local company. You will receive a salary from day one. Your apprenticeship will last up to four years. Your first year will be spent in our engineering training centre here in Gloucester.

Which qualifications will you need?

A minimum of 5 GCSEs at grade A – C including Mathematics, English and Science.

Where will it take you?

- You will be working for a local company on a wide variety of projects.
- You will have the potential for promotion within your company.
- Many of our apprentices have their further education studies sponsored by their company after completing their apprenticeship.
- Find out about GET's Higher Education courses www.get-trained.org/further-learning

What's in it for you?:

- First class training opportunities – it is rewarding but demanding.
- Nationally recognised qualifications.
- Choices for a future in engineering.
- Opportunities to progress into higher education.
- A good wage from the day you start.

Why choose Gloucestershire Engineering Training?

Gloucestershire Engineering **Training** is consistently above the national average for successful completions of apprentices who start with Gloucestershire Engineering **Training** and achieve their full apprenticeship. If you're ambitious, smart, prepared to work hard and interested in engineering, then Gloucestershire Engineering **Training** is the right choice for you. We pride ourselves on the way we support and help our apprentices.

These are the five parts of your Apprenticeship

- 1 An NVQ L3 Extended Diploma in Engineering.
- 2 A Technical Certificate – L3 Diploma in Engineering Technology – will give you the 'theory' part of your apprenticeship.
- 3 Functional Skills in Mathematics, English and ICT.
- 4 Employment Responsibilities and Rights – ensuring that you understand what is expected of you as an employee and what you can expect in return from your employer.
- 5 Personal Learning and Thinking Skills – comprising 6 groups of skills that are essential to success in learning, life and work.
