1. Personal Health & Wellbeing

NHS App

Owned and run by the NHS, the NHS App is a simple and secure way to access a range of NHS services on your smartphone or tablet.

Eating a balanced diet –

<https://www.nhs.uk/live-well/eat-well/the-eatwell-guide/>

- eat at least 5 portions of a variety of fruit and vegetables every day
- base meals on higher fibre starchy foods like potatoes, bread, rice or pasta
- have some dairy or dairy alternatives (such as soya drinks)
- eat some beans, pulses, fish, eggs, meat and other protein
- choose unsaturated oils and spreads, and eat them in small amounts
- drink plenty of fluids (at least 6 to 8 glasses a day)

TOP TIPS FOR TEENS

- Cut down on saturated fat and sugar
 - Eat less salt – no more than 6g a day
 - Get active and be a healthy weight
 - Don't skip breakfast
 - Don't get thirsty
 - Get 60 minutes of exercise a day
-
- **Carbohydrates (carbs):** This is a teen's main source of energy. About half of their calories should come from carbs. Teens should choose healthy carbs like whole grains, fruits, veggies, and milk.
 - **Protein:** Teens need protein to grow and build muscle. About a quarter of a teen's calories should come from protein. Good sources are poultry, lean meat, seafood, eggs, nuts, soy, legumes, and low-fat and nonfat dairy products.
 - **Fat:** Teens need about a quarter of their calories as fat. It helps with growth. Fat also helps the body take in vitamins and keep the skin healthy. Teens should eat healthy fats, such as those found in vegetable oils, nuts, avocados, olives, and fatty fish.

Guidelines for adults aged 19-64

To stay healthy, adults aged 19-64 should try to be active daily and should do:

- at least 150 minutes of moderate aerobic activity such as cycling or fast walking every week, **and**
- strength exercises on two or more days a week that work all the major muscles (legs, hips, back, abdomen, chest, shoulders and arms).

OR

- 75 minutes of vigorous aerobic activity, such as running or a game of singles tennis every week, **and**
- Strength exercises on two or more days a week that work all the major muscles (legs, hips, back, abdomen, chest, shoulders and arms).

OR

- A mix of moderate and vigorous aerobic activity every week. For example, two 30-minute runs plus 30 minutes of fast walking equates to 150 minutes of moderate aerobic activity, **and**
- Strength exercises on two or more days a week that work all the major muscles (legs, hips, back, abdomen, chest, shoulders and arms).

A good rule is that one minute of vigorous activity provides the same health benefits as two minutes of moderate activity.

One way to do your recommended 150 minutes of weekly physical activity is to do 30 minutes on 5 days a week.

All adults should also break up long periods of sitting with light activity.

2. Mental Health

4. Bereavement

Somewhere to turn when someone dies

Cruse Bereavement Care is the leading national charity for bereaved people in England, Wales and Northern Ireland. We offer support, advice and information to children, young people and adults when someone dies and work to enhance society's care of bereaved people.

Cruse offers face-to-face, telephone, email and website support. We have a Freephone national helpline and local services, and a website (**hopeagain.org.uk**) specifically for children and young people. Our services are provided by our network of 5,000 trained volunteers and are confidential and free. Cruse also provides training and consultancy for external organisations and for those who may encounter bereaved people in the course of their work.

6. Homelessness

Gloucestershire Nightstop can be accessed on the very first day a young person finds themselves homeless and with nowhere to go. It is often the only emergency option available for young people in Gloucestershire, and prevents young people from sleeping rough or staying in unsuitable accommodation where they would be in danger or at risk of abuse.

High demand for housing in Gloucestershire means waiting lists for supported accommodation and council housing can be long, and young people with low needs are often at the back of the queue. Low incomes and a reluctance to rent to young people with no tenancy history means that private renting is rarely an option. Nightstop provides a safety net, providing time and space to find more settled options.

Gloucestershire Nightstop provides accommodation for young people who are:

- Aged 16 – 25
- Homeless or at risk
- Without dependent children
- Not under the influence of drugs or alcohol

OPENhouse enables young people and vulnerable individuals in the Stroud district and across Gloucestershire to discover their potential through building a community where they can live, relate, learn, work, get support and find their next step in life. This is achieved by providing housing, enhanced support, development and learning opportunities and links to volunteering and employment experiences. Through a strong community based model OPENhouse provides each individual with a tailor made, flexible programme that directly meets their specific needs.

7. Financial Help

- Citizens Advice Bureau provides free online help on many issues, including debt, benefits, money, employment and consumer rights. For face-to-face advice search for a Citizens Advice Bureau near you.
- Financial Conduct Authority (FCA) regulates the financial services industry in the UK. If you use a financial adviser you can check the FCA register to make sure the firm you're dealing with is regulated. There's also information about financial products, possible scams and how you can protect your money on their website and through their consumer helpline (0800 111 6768).
- MoneySavingExpert.com is a useful source, especially for offering tips on saving money. It is free to use, although the site might get payment if you click through to some of the links offered.
- The Pensions Advisory Service gives free guidance on all pension matters. It also helps with problems, complaints or disputes you might have with your workplace or private pension arrangement. Its telephone helpline (0300 1231047) is staffed by pension specialists.

Free debt advice

The following organisations offer free, impartial support and advice to anyone in debt, worried about debt or facing bankruptcy.

- Christians Against Poverty
- Citizens Advice
- Citizens Advice Scotland
- StepChange Debt Charity
- Debt Advice Foundation
- National Debtline
- Debt Action NI

Free tax advice

- Low Incomes Tax Reform Group provides tax help for people on low incomes including students, pensioners and the disabled. They can't help people directly but can direct you to further help from their website.

8. Relationship & Sexual Orientation Guidance

Things to remember about your sexuality:

- Only you can decide about your sexuality
- It takes different people different amounts of time to understand their sexuality
- 'coming out' can be a tough experience but it can often get easier as you start to tell more people
- There are lots of different types of sexuality
- Someone's sexuality may change over time- this is ok

SEXUALITY

Some people know when they're very young who they fancy. For other people, it's not so simple. And it can take a while to work out.

People whose sexuality is something other than straight are often called LGB (short for lesbian, gay or bisexual) or LGBT' – the 'T' stands for transgender (a gender identity rather than an orientation). But there are many more different kinds of sexuality.

It might take some time to work out what your sexual orientation is. Remember there's no such thing as normal. And you don't have to feel pressured or rushed to give yourself a label.

RELATIONSHIPS

Being in a relationship can be really exciting. Getting to know someone, hanging out and feeling happy just thinking about them. It can also be confusing.
